We would like to inform you different activities which is taking place to our parish. Our parish has **6** preaching points. These points are Mtera, Kinyali, Chamisili, Mlimeni, Makatopora and Cuba.

At Mtera point (Main station).

We continue with our construction of big church which has reached at roofing stage. In this stage the only thing remained is iron sheets, which it cost 13 millions Tsh; but we as Mtera congregation we have collected 3.5 millions and we continue collecting some contributions from our church members. Our target roofing activities should be ended this year 2021.

At Chamisili point.

At Chamisili, also we have started to build a church, which has reached at walls point except center stage not yet completed because lack of money. We need for purchasing different building materials such as cements and gravels. Therefore if we can get 2.5 millions we are going to complete center stage this year. We still making different contributions from ourselves and until now we have 500,000/= Tsh.
